DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claims 5 and 9, the term "high support performance" is a relative term which renders the claim indefinite. The phrase "respective fingers, a four-finger, a five finger body" has no clear and definite meaning as to the number of finger being claimed. Also the term "knotted" is unclear. Is this a knit stitch being claimed?

Re claims 7 and 11, the phrase "high density" is a indefinite relative term.

Re claims 8 and 12, the recitation "gradually reduced" is unclear as to how and what dimension is being reduced.

Allowable Subject Matter

Claims 5 and 9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 6-8 and 10-12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
